

Learning and Development – Term 3

It has been a really busy and fun time at kindergarten this term!

The interest in buildings has been hugely popular with most children being involved in one way or another.

This interest has led to the making of an amazing town and city. We have provided a huge amount of resources such as art materials, boxes and books to provoke discussion around what makes up a town or city.

We have also used our newly purchased data projector. This has proved to be an invaluable teaching tool allowing us and the children to continually revisit buildings which have been of interest.

Some of the children have shown some fantastic art skills being able to draw marvellous sky scrapers and sky tower sketches.

Our trip to the sky tower on the 14th September was hugely popular with adults and children alike and a good time was had by all.

Next week we are gearing up to

take part in the Jump Rope for Heart jump-a-thon week. This will begin on the 19th September. We will start practising for some activities to undertake for the jump-a-thon and this is a way of raising some funds for the Heart Foundation.

We would like children to get sponsors for this week. A small coin such as \$1 would be great.

Other News...

Grandparents & Older Persons Day

We had a lovely Grandparents & older persons morning tea on the 25th of August. We were delighted at the number of people who turned up at various times of the morning. Many stayed for most of the session and got involved with their grandchildren and those around them.

Rugby World Cup Luncheon

The Rugby World Cup luncheon was held on the 6th of September. The children and their families certainly got into the spirit of things and it was fantastic to see so many turn up who were not enrolled for the day. A big thank you to the parents, grandparents and committee members who helped.
